Report of Examination

Examiner Name: Janice Norris Little

Date: November 22, 2000

Unit: Latent Print

Phone No.: (202) 324-5166

Case ID No.: 91A-BS-85677

Lab No.: 991201010 FV CY

Results of Examinations:

A latent print examination of Q1 and Q2, two withdrawal slips, and Q3 through Q6, four lifts, was conducted and thirty-six latent fingerprints and two latent palm prints of value are present or were developed on Q1, Q2 and Q5.

Thirty-five latent fingerprints on Q1 and Q2 have been identified as fingerprints of JOSEPH D. MATZ, FBI #735946HA5, as follows:

Twenty on Q1, handwritten demand note on the back of a  
BankBoston Checking/Money Market Account Withdrawal  
Slip beginning "I want 2,000 dollars..."  
Fifteen on Q2, blank BankBoston Checking/Money Market  
Account Withdrawal Slip

The remaining latent fingerprint was compared; insofar as possible, with the available fingerprints of MATZ, but no identification was effected. Clearly and completely recorded inked impressions of the tip areas of the fingers are needed for a conclusive comparison. Palm prints are not available for this individual.

Inked prints of MATZ, recorded in connection with this case, should be submitted to the Latent Print Unit with correspondence referenced to Laboratory Number 991201010 FV CY. These prints will be used for comparison purposes and any latent print testimony you may desire in this matter.
